

FOR IMMEDIATE RELEASE

PRESS RELEASE

Sixteenth Ranking of European Leasing Companies Just Released by Leaseurope

Brussels, 19 April 2017 – Leaseurope is pleased to announce the release of its sixteenth annual Ranking of Top European Leasing Companies. The purpose of the Ranking is to provide a yearly update on new leasing volumes and portfolios of the largest European lessors.

This year, lessors from 25 different countries including both EU and non-EU Member States participated in the survey. The majority of the firms in the Ranking tables are members of the 46 Member Associations represented by Leaseurope which in turn represent over 1,400 leasing companies accounting for approximately 93% of the entire European leasing market in 2015.¹

Of the 70 partaking companies 59 are parent or stand alone companies (bank related, captive or independent leasing companies) and 11 are classified as subsidiaries. These firms are ranked according to the value of their new contracts in 2016. The figures are shown in the attached tables, on a consolidated basis covering the parent and stand alone companies only.

These parent and standalone companies reported new leasing volumes of over €148 billion, with 26 companies reporting volumes of over €1 billion. The average contract size (for all asset types considered together) was €34,318.

Leaseurope attempts to present an accurate representation of the Ranking figures. However, this exercise is not exhaustive as, while all European leasing firms are invited to take part in the survey, **participation is voluntary**. The full version of the Ranking is available to Leaseurope members and participating leasing firms only.

¹ According to Leaseurope's 2015 Annual Statistical Enquiry. Figures for 2016 were unavailable at the time of writing but will be available in the coming weeks.

Note to the Editor

Leaseurope's Statistical Enquiries

- The only source of comparable leasing market data at European level
- Carried out twice a year by collecting and aggregating data from our Member Associations on the basis of a common methodology

Leaseurope Index

- A unique quarterly survey providing timely information on European leasing and automotive market trends
- A snapshot of cost/income, profitability, cost of risk, return on equity (RoE) and return on assets (RoA) ratios, as well as volume metrics, for a representative sample of European lessors
- Additional supplement, including a breakdown of indicators by asset class, published once a year

Leaseurope/Invigors Business Confidence Survey

- Provides an authoritative, up-to-date perspective on the outlook for asset finance by measuring the expectations of European leasing professionals twice a year

About Leaseurope

As a Federation, Leaseurope brings together 46 associations throughout Europe representing either the leasing, long term and/or short term automotive rental industries. The scope of products covered by Leaseurope's Members ranges from hire purchase and finance leases to operating leases of all asset types (automotive, equipment and real estate) and also includes the rental of cars, vans and trucks. It is estimated that Leaseurope represents approximately 93% of the European leasing market.

Leaseurope's mission is to effectively represent the European industry with a united voice vis-à-vis European and international policymakers, be the catalyst for European-level research in the field of leasing and automotive rental and provide leasing companies in Europe with the platforms they need to meet their peers from other countries. In particular, thanks to Leaseurope's **Research Programme**, Leaseurope ensures that the leasing industry is provided with up-to-date and comprehensive market data, research studies and publications on the trends and developments of the leasing and automotive rental industry. More information on the Leaseurope Research Programme [here](#).
